No. Additionally, My Career Advancement Account Scholarship does not pay costs for transportation, lodging or housing, and other related expenses. My Career Advancement Account Scholarship only pays tuition costs for courses and programs of study offered by participating schools within the United States and for those offered by these same institutions on military installations overseas.

A hold for additional funding will be placed on the spouse's account until he or she talks to a Spouse Education and Career Opportunities certified Career Counselor and develops a plan for successfully completing future courses using My Career Advancement Account Scholarship funding.

A second course failure or withdrawal may result in the spouse's My Career Advancement Account Scholarship being permanently suspended.

How will a spouse know if his or her license or certification qualifies as a portable career?

The departments of Labor and Defense define a portable career as one that is high-growth, high-demand employment and most likely to have job openings in military duty locations. These types of careers are plentiful in many locations where military families are stationed. Spouse Education and Career Opportunities certified Career Counselors (800-342-9647) can provide career and education counseling that will help spouses find licenses, certifications and other credentials recognized by the departments of Labor and Defense as portable. They can also direct spouses to testing sources for these credentials and testing organizations that are registered participants in the My Career Advancement Account Scholarship program. For more information, spouses should visit the Tests Page in the My Career Advancement Account Spouse Portal (<https://aiportal.acc.af.mil/mycaa>).

Can a spouse's associate degree be in any subject?

Spouses must pursue and enroll in an associate degree that supports a portable career field. The associate degree must have a clear major or concentration supporting the career field noted on the Education and Training Plan. For example, associate degrees in general education would not be considered a good or acceptable career choice. Associate degrees in General Studies and Liberal Arts are not eligible for My Career Advancement Account Scholarship funding. Another example is the associate degree in Pre-Nursing where the spouse is not yet accepted and enrolled in the nursing program.

My Career Advancement Account Scholarship Financial Assistance

When can a spouse apply for My Career Advancement Account Scholarship financial assistance?

After spouses have created an Education and Training Plan and received My Career Advancement Account Scholarship approval, they can request financial assistance on a course-by-course basis no earlier than 60 days before the start of the course. Courses that have different start and end dates must be on separate financial assistance requests.

How does the fiscal year cap affect My Career Advancement Account Scholarship funding?

The funds for the My Career Advancement Account Scholarship program are based on the government fiscal year, which runs from Oct. 1 to Sept. 30. Therefore, it is important for spouses to plan how they will pay for their schooling throughout the year. Some important information about the My Career Advancement Account Scholarship program's fiscal year is listed below.

- ✓ There is a \$2,000 fiscal year spending cap (a maximum of \$2,000 can be used per fiscal year).
- ✓ The \$2,000 fiscal year cap is based on the start date of the course or program, not the date the financial assistance request is submitted or approved.
- ✓ Spouses should pay close attention to the fiscal year dates so they can plan accordingly for the next fiscal year.
- ✓ If all of a spouse's My Career Advancement Account Scholarship funds are not used within three years from the start date of the first course on their first financial assistance request, those funds will be forfeited. Additionally, all courses must be completed by the end of the three-year period.

The examples below show how the fiscal year cap can impact spouses' My Career Advancement Account Scholarship funding. Examples are based on a new My Career Advancement Account Scholarship with \$4,000.

Example 1: If only \$1,000 is used in the first fiscal year of the My Career Advancement Account Scholarship, then \$2,000 can be used in the second fiscal year, and \$1,000 can be used in the third fiscal year, not to exceed \$4,000.

Example 2: If only \$300 is requested at the end of the first fiscal year, another \$2,000 of My Career Advancement Account Scholarship funding can be used in the second fiscal year. The remaining \$1,700 cannot be used until the third fiscal year.

Example 3: If only \$500 is used in the first fiscal year of the My Career Advancement Account Scholarship and \$500 is used in the second fiscal year, only \$2,000 would be available to use in the third fiscal year. If \$2,000 is used in the third fiscal year, the remaining \$1,000 left in the account would be forfeited since it was not used during the first and second fiscal years.

If additional educational funding is needed, spouses should search for financial assistance resources on the MySECO site <https://myseco.militaryonesource.mil/Portal/Content/General/295> or contact Military OneSource at 800-342-9647 for information on other financial assistance programs.

What if a spouse is planning on getting a certification that is going to cost more than \$2,000 up front? Can the \$2,000 per year cap be exceeded?

Yes, there is a waiver process built into the My Career Advancement Account Scholarship program for certificates, licenses and certifications that require up-front tuition that is greater than \$2,000 with a total expenditure limit of \$4,000. Spouses should contact a Spouse Education and Career Opportunities certified Career Counselor (800-342-9647 or the My Career Advancement Account Message Box) for assistance in requesting a waiver from My Career Advancement Account Scholarship policy requirements.
